### HSG282 COMPLIANT

Getaway Lodge Series hot tubs are HSG282 compliant, meet strict UL standards and are manufactured in the USA by Master Spas, a global industry leader.

### ROBUST ONE-PIECE COMPOSITE CONSTRUCTION

Getaway Lodge Series hot tubs are durable and hassle-free, thanks to the unique unibody construction and the use of high-quality materials. The spa is made with high-density polyethylene, which makes it strong, lightweight and scratch-resistant. The design makes it easier to move — either from one property to another, or another spot in the area. And with the high-quality control panel from industry leader Balboa Water Group, the hot tub is easy to operate — for you and the guest.

### TITANIUM HEATER AND SMART FILTER SYSTEM

Getaway Lodge spas feature a robust titanium heater for added durability and reliability, even under high-flow conditions. The smart filter assures HSG282 compliancy: a self-dosing system with proven reliability.

### ACCESSIBLE, FAST DRAIN

Save time between stays with an easy-to-access drain.

### ENERGY EFFICIENT

Full-foam insulation maximises heat retention and temperature control, which results in lower energy costs. Every Getaway Lodge Series hot tub meets stringent energy efficiency regulations.

### HEAT PUMP

All Master Spas now come heat pump ready. Heat pumps can reduce your spa's running costs, speed up heating times and lower your spas' carbon footprint.
